

Sprint Retrospective, Iteration # _3_

User Story	Task	Member responsible for the task	Estimated Effort per Task (in hours)	Actual Effort per Task (in hours)	Done (yes / no)	Notes
As a user, when I am viewing the graph I want visual information on the different nodes and edges	Implement relative size of nodes	Jasper	5	0	No	Didn't come around to it, was a low priority.
	Implement colouring of nodes	Jip	5	1	No	Same as above.
	Highlight selected nodes	Lex	5	5	Yes	
As a user, when I start the application, and I have selected a genome, I should be able to see the genome and its edges and I should be able to choose a node to see its information	Implement edges between nodes	Jasper and Lex	20	20	Yes	
	Rewrite to utilize co-ordinates in zooming and panning functionality.	Jip and Jasper	15	15	Yes	Not actual co-ordinates.
	Gain information by clicking on a node	Jasper and Lex	10	10	Yes	
As a tester, I want to make sure all the code is properly working	Test	Everyone	20	40	Yes	Some unit tests but also user stories for the gui

As a developer, I want to spy on other teams	Sit in other meetings	Marc	2	2	Yes	
As a developer, when parsing the genome file, I want to efficiently save the data	Create a data structure to save the data from the genome file	Eric and Marc	35	40	Yes	
As a user, I want to be able to bookmark parts of the genome	Implement bookmarks	Jip and Marc	10	10	Yes	Very basic, can still be upgraded
As a user I want to acces my recent files in the file finder	QOL changes to file finder	Jasper and Lex	15	10	Yes
